

**wealthy**  
Technologies

# Corporate Profile

# Overview

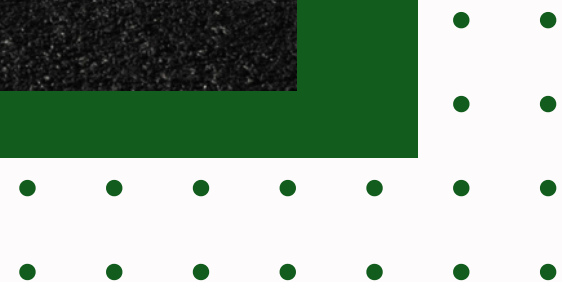

**Wealthy Technologies** is a technology brand focused primarily on computer hardware supply solutions, specialized IT maintenance, and practical technical support services, established with a clear vision to simplify technology by providing reliable, hands-on solutions, ensuring individuals and organizations maintain efficient, secure, and productive digital systems.

At its foundation, Wealthy Technologies is committed to solving real-world computer and IT-related challenges through professional maintenance services, hardware support, troubleshooting, system optimization, and technical guidance.

The goal of Wealthy Technologies is to build a trusted reputation for reliability, technical excellence, innovation, and accessible problem-solving while contributing to a more informed and technologically empowered society.

# Vision

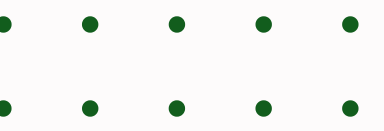

A trusted and leading technology solutions brand recognized for excellence in computer hardware support, specialized IT maintenance, innovation, and reliable technology-driven services across Africa and beyond.

# Mission

To provide dependable computer hardware solutions, specialized IT maintenance, and practical technical support services through innovation, professionalism, and customer-focused problem-solving while making technology more efficient, accessible, and reliable.

# Target Audience

## Corporate Entities

Providing reliable IT maintenance and hardware support solutions that enhance business productivity and efficiency.

## Government Parastatals

Supporting public sector institutions with efficient IT maintenance, hardware management, and technical support services.

## Institutions/ Organisations

Delivering dependable technical support and system maintenance solutions for structured operational environments.

## Tech Professionals

Empowering aspiring tech professionals and enthusiasts through practical technology support, awareness, and guidance.
